P. MAHESH

Aspiring Cybersecurity Analyst | Cybersecurity Enthusiast

Anantapur, Andhra Pradesh | +91 8639979924 | maheshvision9@gmail.com | LinkedIn

CAREER OBJECTIVE

Driven Cybersecurity professional seeking an entry-level VAPT / Cybersecurity Analyst role, with hands-on knowledge of penetration testing, web application security, network security, and digital forensics. Skilled in using Burp Suite, Nmap, Metasploit, Wireshark, OWASP ZAP, Autopsy and FTK Imager, with scripting knowledge in Python and PowerShell. Familiar with OWASP, MITRE ATT&CK, NIST CSF, and ISO 27001. Eager to apply practical security skills to identify vulnerabilities, investigate threats, and strengthen organizational security while continuously developing expertise in cybersecurity.

TECHNICAL SKILLS

Security Tools: Burp Suite, Metasploit, Nmap, Wireshark, OWASP ZAP, Autopsy, FTK Imager
Programming: Python, PowerShell, SQL, JavaScript, HTML/CSS
Operating Systems: Linux (Kali, Ubuntu, CentOS), Windows Server, Windows 10/11
Frameworks & Standards: OWASP, MITRE ATT&CK, NIST Cybersecurity Framework, ISO 27001
Areas of Expertise: Penetration Testing, Web Application Security, Network Security, DFIR, Threat Intelligence

PROJECTS & PRACTICAL LEARNING

Web Application VAPT Lab

- Practiced web application security testing using Burp Suite and OWASP ZAP in controlled lab environments.
- Tested common OWASP Top 10 vulnerabilities including SQL Injection, XSS, authentication and access-control weaknesses.
- Performed request interception, parameter manipulation, endpoint testing, and vulnerability validation.
- Documented findings with evidence, impact, severity, and remediation recommendations.

Network VAPT Lab – Kali Linux & Metasploitable

- Performed reconnaissance, host discovery, port scanning, and service enumeration using Nmap.
- Identified exposed services and potential attack surfaces from network configurations.
- Used Metasploit in controlled labs to validate known vulnerabilities and understand exploitation techniques.
- Analyzed network traffic using Wireshark and documented security findings.

Security Testing & Automation

- Practiced vulnerability assessment workflows using Kali Linux, Nmap, Burp Suite, Metasploit, and OWASP ZAP.
- Developed basic Python and PowerShell scripts to support reconnaissance and security-testing tasks.
- Completed hands-on TryHackMe VAPT labs covering reconnaissance, enumeration, web security, Linux security, and exploitation fundamentals.

CERTIFICATIONS & LEARNING

Palo Alto Academy – Virtual Cybersecurity Internship | April 2025 – June 2025

- Completed virtual cybersecurity training covering foundational cybersecurity concepts.
- Developed exposure to security operations and cybersecurity practices.

Zscaler Academy – Virtual Networking Internship | November 2024

- Completed virtual training focused on networking fundamentals.
- Developed foundational understanding of networking concepts relevant to cybersecurity.

TryHackMe – VAPT Fundamentals | In Progress, Started 2026

- Developing practical knowledge of VAPT operations and red-team security concepts.
- Practicing security investigation scenarios through hands-on learning modules.

EDUCATION

B.Tech in Mechanical Engineering – CGPA: 7.4 *2022 – 2026*
Srinivasa Ramanujan Institute of Technology, Anantapur

Intermediate (MPC) – 6.3 *2020 – 2022*
Narayana Junior College, Anantapur

Secondary School – 93% *2019 – 2020*
Sri Gayathri English Medium High School, Anantapur

EXTRA-CURRICULAR ACTIVITIES

- Active member, Red Cross Service – volunteered with a global humanitarian organization dedicated to protecting human life and health
